

# GOOD NEWS ON NATIONAL RURAL HEALTH DAY

Rural Uninsurance Rate Decreases from 13.0% in 2014 to 10.9% in 2015.

These estimates are from recently released data on health insurance coverage from the Current Population Survey for the period Feb.-April 2014 to Feb.-April 2015. Rural is defined here as non-metropolitan which means the individual lives outside of a place with at least 50,000 individuals and surrounding suburbs. Please see (<http://www.census.gov/programs-surveys/cps/technical-documentation/subject-definitions.html#metropolitanresidence>) for more details on the definition of metropolitan.
